About Me:

I am a passionate Computer Science student, eager to leverage my skills in real-world applications. My enthusiasm for technology drives me to continuously learn and innovate, aiming to contribute effectively to future projects.

Experience

Computer Science Student

- Built web applications using HTML, CSS, JavaScript, and React.
- Developed a scalable e-commerce platform, working on front-end and backend.
- Enhanced problem-solving through debugging and troubleshooting in various coding environments.

E-commerce Store Management

- Tracked sales and monitored inventory levels.
- Analyzed customer behavior and identified trends.
- Created financial reports and projections.

Education

Yanbu industrial college

Computer Science Achieved First-Class Honors two times	2023
Computer Science Achieved Second-Class Honor	2024

Skills

- Strong understanding of data structures and algorithms
- Web development: Basic HTML/CSS knowledge
- Excel Proficiency: Data analysis, financial modeling, inventory management, reporting
- E-commerce Management: Online store setup, product listing, order fulfillment, customer service
